### 310:321-1

**Title:** Circulation Systems And Circulation System Pipe Material Standard [NEW]; Decks, Deck Equipment And Diving [NEW]; General Operations Requirements And Compliance [NEW]; General Provisions [NEW]; Heaters [NEW]; Permits And Designs [NEW]

**Type:** Proposed

**Citations:** 310:321-1

**Agency:** Department of Health

**Publication Date:** Sep 16, 2024

**Summary:** This proposed rule outlines minimum safety and design standards for pools and spas, with provisions based on the 2024 International Swimming Pool and Spa Code (ISPSC). It specifies that concrete finishes for pool interiors must be white or light-colored and comply with the Munsell gray scale, ensuring clarity for safety purposes. Decking around pools and spas must be slip-resistant, with at least 90% perimeter access, and a clearance of 4 feet around diving equipment. Railings for deck steps are required for public pools and spas, and decking surfaces must meet specific slip-resistance standards. Additionally, decks between pools and spas must maintain a minimum width of 6 feet. This provision exempts spray pads, splash pads, private residential pools, apartment complex pools, country club pools, subdivision pools, pools focused on external body cleansing, therapeutic pools at licensed facilities, therapeutic chambers cleaned after each use, and religious ritual baths from these rules.
