Building Code Alerts Bills

1 Bills

CA SB 1152

Title: State Fire Marshal: fire safety: regulations: lithium-based battery systems: telecommunications infrastructure.

Current Status: Passed

Introduction Date: February 14, 2024

Last Action Date: Chaptered by Secretary of State. Chapter 781, Statutes of 2024.. September 27, 2024

Summary: This bill focuses on fire safety regulations for lithium-ion batteries in California. The bill requires the State Fire Marshal to propose updates to the fire standards for lead-acid and nickel-cadmium battery systems to also include identical requirements for lithium-ion batteries. These updates must be proposed before the next triennial edition of the California Building Standards Code adopted after January 1, 2025. The Legislature intends that no additional requirements, beyond those described in the bill, are included in the updated battery requirement regulations.

Building Code Alerts Regulations

1 Regulations

24.301.138

Title: State Building Code

Type: Final

Citations: 24.301.138

Agency: Montana Department of Labor & Industry

Publication Date: Sep 20, 2024

Summary: The final rule (24.301.172) rule incorporates the 2021 edition of the International Mechanical Code (IMC) while making several modifications, including replacing references to the International Plumbing Code with the Uniform Plumbing Code. The final rule (24.301.401) adopts the 2020 edition of the National Fire Protection Association Standard NFPA 70, known as the National Electrical Code, incorporating it by reference unless a different edition is specified. This code establishes minimum standards and requirements for electrical installations nationwide. The final rule (24.301.154) adopts the 2021 edition of the International Residential Code, incorporating it by reference. This code sets forth minimum standards and requirements for detached one- or two-family dwellings and multiple single-family dwellings (townhouses) not more than three stories above grade in height, and their accessory structures. The final rule (24.301.161) adopts the 2021 edition of the International Energy Conservation Code incorporating it by reference unless a different edition is specified. This code is a model code for the energy efficient construction of buildings.
